Item	Change (%)	Main reason
Net profit attributable to shareholders of the listed company _ from the beginning of the year to the end of the reporting period	-66.59	Primarily due to changes in the income structure in the first three quarters, which lead to the decrease in the gross profit margin, the legal service fees for the GDC arbitration, and the adjustment of the GDC equity interests to other non-current financial assets, which lead to investment losses

		recognized and measured at fair value in the second quarter.
Net profit attributable to shareholders of the listed company _ the reporting period	-40.28	Primarily due to changes in the income structure during the reporting period, which lead to the decrease in the gross profit margin.
Net profit attributable to shareholders of the listed company after deduction of non-recurring profit or loss _ from the beginning of the year to the end of the reporting period	-48.22	Primarily due to changes in the income structure in the first three quarters, which lead to the decrease in the gross profit margin, and the legal service fees for the GDC arbitration.
Net profit attributable to shareholders of the listed company after deduction of non-recurring profit or loss _ the reporting period	-38.19	Primarily due to changes in the income structure during the reporting period, which lead to the decrease in the gross profit margin.
Net cash flow from operating activities _ from the beginning of the year to the end of the reporting period	-65.77	Primarily due to the increase in net other cash payments relating to operating activities because the monetary funds of Appotronics HK were subject to restriction.
Basic earnings per share _ from the beginning of the year to the end of the reporting period	-67.86	Primarily due to the decrease in the net profit attributable to shareholders of the listed company in the first three quarters.
Diluted earnings per share _ from the beginning of the year to the end of the reporting period	-67.86	Primarily due to the decrease in the net profit attributable to shareholders of the listed company in the first three quarters.
Basic earnings per share _ the reporting period	-41.67	Primarily due to the decrease in the net profit attributable to shareholders of the listed company during the reporting period.
Diluted earnings per share _ the reporting period	-41.67	Primarily due to the decrease in the net profit attributable to shareholders of the listed company during the reporting period.

Analysis of business operations during the reporting period:

In the first three quarters of 2024, Appotronics leveraged its core technological strengths to propel its strategic transformation forward. Notably, the automotive optics business emerged as a pivotal revenue generator. Our operating revenue reached RMB 1.72 billion, marking a 4.18% year-on-year increase. The net profit attributable to parent company shareholders totaled RMB 42.95 million, with the

adjusted net profit attributable to parent company shareholders, excluding non-recurring items, amounting to RMB 39.61 million.

During the third quarter of 2024, we achieved an operating revenue of RMB 638 million, up 10.53% compared to the same period last year. In the same quarter, the automotive optics business contributed RMB 217 million in operating revenue. During the first three quarters, this segment generated RMB 458 million in operating revenue, primarily from the timely and successful deliveries of automobile-grade laser projection giant screens to the AITO M9 SUVs, which were co-developed by Huawei and Seres. Notably, on October 10, AITO's WeChat account announced that customers have placed deposits for over 150,000 AITO M9 vehicles, positioning it as the top-selling model priced above RMB 500,000.

Since the beginning of 2024, Appotronics has maintained close and frequent technical and commercial collaborations with Seres, BAIC Motor, and other Huawei automobile partners. Our discussions have primarily centered on automotive optics projects for the upcoming new variants of Seres AITO's mainstream models and the forthcoming latest offerings in BAIC Motor's Stelato mainstream lineup. We have presented samples and engaged in detailed dialogues on next-generation technologies, including laser projection giant screens and smart vehicle headlights, earning high recognition and praise from our customers.

In October 2024, we received a second Development Nomination Letter from Beijing Electric Vehicle, a subsidiary of BAIC, appointing us as a supplier of smart cockpit display products for new Stelato models. Mass production and delivery of these vehicles are projected to commence in 2025, which will benefit our operations throughout their lifespan.

Beyond maintaining our cooperation with Huawei and its automotive partners, we have conducted in-depth talks with Great Wall Motor, Hyundai Motor, and other prominent domestic and international automobile manufacturers. Separate cooperation projects have been established to tailor vehicle-mounted products according to their unique priorities and timelines for new vehicle model development and launch. This paves the way for sustainable growth in our automotive optics business. Currently, we have secured eight development nominations encompassing automobile-grade giant screens, pixel headlights, and other products, further bolstering the future prospects of our automotive business.
